

Count on Echo's Expertise When Shipping Heavy Haul or Over Dimensional

Echo Global Logistics handles complex shipments and specialized operations on time and on budget with proven experience and exceptional service.

Our Agile Team Has Answers When You Need Them

From inception to completion, Echo dedicates a single point of contact to each client, ensuring every step of the supply chain is managed.

Echo leverages our diverse carrier network to handle specialized projects and secure shipments in a quick, cost-effective way for a variety of industries.

Key Offerings:

- Over Dimensional
- Deck Loads
- Special Projects
- Superloads

Echo Optimizes Value with Customized Technology Solutions

Our proprietary technology provides complete visibility throughout the project lifecycle with real-time tracking and robust data.

In addition to managing the entire shipping process, Echo produces customized reports that provide insights into freight expenditures.

We Streamline the Lifespan of Specialized Projects

Echo simplifies transportation management by selecting carrier partners on behalf of our clients and ensuring compliance with new and changing regulations.

We work with engineers and product managers to ensure the load arrives safely, on time, and within budget.

Logistics Services:

- Pre-Planning Analysis
- Consulting
- Load Permits
- P/O Management
- Cost Analysis
- Quotes
- Operations Scheduling
- Insurance
- Site Analysis
- Route Surveys
- Onsite Management
- Track & Trace

Trust Echo with your specialized shipment. Call your Echo representative today to learn more about our heavy-haul, over-dimensional, and other unique project services.
